

## Elegant “Skinny Lines”

Taught by Lisa Jenni June 25, 2026. Class cost \$65. If more than 10 sign up, the cost will be reduced.

Lisa was the guest artist at the 2024 Quilt and Fiber Art Festival. Many of you had a chance to talk to her and see her award winning quilts. She has shown and won awards in major shows in the United States and has a wealth of knowledge and talent. Don't miss this chance to take a class with a world-class quilter and delightful person.

## Elegant “Skinny Stitches”

Make a Lumbar Pillow, Table Runner or narrow Wall Hanging, any of these will look very elegant.

### 1 LEARN HOW TO MAKE STRAIGHT & SOFT-CURVED SKINNY LINES

Have you admired contemporary art quilts with very skinny, elegant lines? This is your class to learn how to carefully piece those lines with precision, - without pinning! Once you've figured out the skinny straight lines, we'll progress to soft curves, it's easier than you think, you'll learn how to step-by-step. Not even a ruler for cutting is necessary and completely optional.

Use colorful batiks or showcase your precious hand-dyed fabric, - this is the place to try it and experiment as you won't need much of it. And I'll get you acquainted with a very simple, unusual for quilters, tool that might help you in more ways than just what this class covers.

### 2 HOW TO QUILT THIS?

Which look is your favorite? The currently popular “matchstick” quilting, going with the walking foot in straight-stitch spirals, or rather a free-form and free-motion all-over pattern?

### 3 DESIGN DISCUSSION

We'll look at examples of skinny line quilts from other artists and talk about possibilities, make some simple sketches to hold on to your idea how to apply this technique.
